

Members-Only Benefit Prepare and File Your Taxes for Free

Dear Brothers and Sisters:

You can now prepare and file your federal and state income tax returns for free. It's a members-only benefit exclusively for Boilermakers that is new to our Local. It's an easy way to save money. You no longer need to purchase tax software, pay to electronically file, or use a for-profit tax preparation business.

Boilermaker members have free access to TaxSlayer tax preparation software. The software includes federal and state tax returns with schedules. It is fast, easy, and accurate with built-in assistance to answer your questions. It is cloud-based so there is no software to download and you can access it from your smartphone, tablet, or desktop.

When you are done filling out your tax forms, TaxSlayer will electronically file your federal and state returns with no filing charges. You will be notified when the IRS and state revenue offices have received and accepted your return.

If you need assistance with your tax return, Boilermaker members can get expert help from IRS-certified volunteers at Bemidji State University.

Get Started

To take advantage of this benefit, simply send an email to VITAFreeTaxInfo@bemidjistate.edu with "Boilermakers" in the subject line. BSU-VITA will automatically reply with a link to establish your own free account on TaxSlayer. Their email also includes additional resources to help you get started.

Get started today. Tax filing season runs from Feb. 12 through April 15.

This benefit is part of an initiative to expand free tax filing. Thanks to the IRS Stakeholder Partnerships, Education & Communication (SPEC) program, St. Paul Territory office.

Fraternally Yours,

Luke Voigt
Business Manager/Secretary Treasurer
Boilermakers Local #647
